

# MORAL COMPASS FEDERATION

## MISSION

The moral injury of the Fall of Afghanistan has affected thousands of United States veterans – Moral Compass Federation is their safe outlet. We serve as a nexus to support veterans and advocate for those left behind. The Federation collaborates among Special Operations organizations to safeguard and evacuate our Afghan partners from Taliban rule.

## WHAT WE DO

### Advocate

The Special Operations community has come together to form The Moral Compass Federation. While other consortiums exist, we believe our decades of military and diplomatic experience in Afghanistan uniquely qualify us to advocate for our partners most effectively.

### Community

We seek to protect the Afghans who protected us - we trained, fought alongside, and built friendships with them. When the United States came calling with a promise of a brighter and safer future for Afghanistan, these were the people who stepped forward to build upon the dream we inspired.

### Support

As official evacuation efforts have stagnated, it has become more critical than ever for us to combine resources for providing life-saving humanitarian support to our Afghan allies. At the same time, we continue to negotiate their immigration and resettlement in the United States.

### Partner

The United States selected us to serve in its Special Operations & Special Operational Forces because we are among the most committed Americans. Today, we recommit our efforts to uphold the promises made to our Afghan allies.

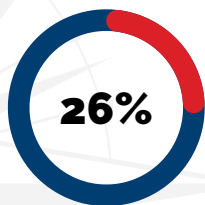

### Evacuate

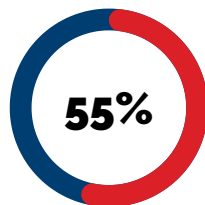

The Moral Compass Federation is focused on solutions to assist our Afghan counterparts -- from ensuring those who have a legal pathway to the United States are evacuated to working with host nations for permanent resettlement, so they are ready for extraction when the time comes.

## WHO WE HELP

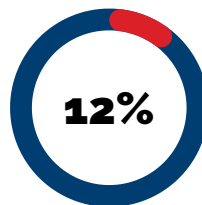

### Military Affiliated

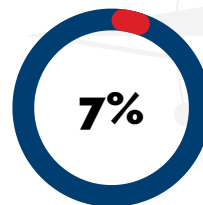

### Dependents Women & Children

### At-Risk Individuals

### Other Populations

**TOTAL INDIVIDUALS: 33,351**
